Results

Placement advantage that speaks

Our graduates land roles at leading companies before their final semester ends. The numbers prove what our students achieve.

Explore careers View stories

Ninety-four percent placed

Most students secure positions within eight weeks of graduation across technology, finance, and consulting sectors.

Average package growth

Salaries increase significantly for postgraduate students, with specializations in emerging fields commanding premium offers.

Global opportunities

Twenty percent of graduates work internationally, with placements in Singapore, London, and the United States.

Learning

Curriculum designed by industry

We work with leading companies to ensure every subject you study has real application. Your projects are real problems from real clients.

Explore programs See partnerships

Live industry projects

Students solve actual business challenges from day one, working alongside professionals from partner organizations.

Expert faculty

Instructors bring decades of experience from companies like Microsoft, Google, and Amazon to the classroom.

Hands-on labs

State-of-the-art facilities let you build, test, and iterate with the same tools used in professional environments.

World

Education without borders

Study abroad programs, international faculty, and collaborations with universities across Europe and Asia shape your perspective. You graduate ready for a global career.

Learn about exchanges View partnerships

Exchange semesters

Spend a semester at partner universities in Germany, Singapore, or Canada while earning credits toward your degree.

International internships

Work with multinational companies abroad, gaining experience in different markets and business cultures.

Global faculty

Learn from professors who have taught and researched across continents, bringing diverse methodologies to every course.

Support

Learning tailored to you

Small class sizes mean your professors know your strengths and challenges. Mentorship is personal, not generic. You're not a number here.

Explore support services Meet faculty

Mentorship programs

Each student is paired with a faculty mentor who guides academic choices, career planning, and personal development throughout enrollment.

Small batch sizes

Average class size of twenty-five students ensures individual attention and meaningful interaction with instructors.

Academic support

Tutoring, writing centers, and counseling services are available to help you succeed in every aspect of your studies.

Creation

Where ideas become ventures

Our incubation center has launched thirty startups in the last three years. We provide funding, mentorship, and space for your ideas to grow into real businesses.

Explore incubation View startups

Incubation support

Access seed funding, workspace, and guidance from successful entrepreneurs to turn your concept into a functioning startup.

Entrepreneurship courses

Learn business fundamentals, pitch techniques, and fundraising strategies from instructors who have built companies themselves.

Student ventures

Recent graduate companies have raised over two million dollars in funding and serve clients across India and Southeast Asia.

Student stories

Real outcomes from real students

Webflow

Atria gave me the tools and confidence to lead projects at a Fortune 500 company within my first year.

Rajesh Kumar
Senior engineer, Google
